I was recently effected in the ColdCard mk3 hacks. My case was not one of the initial incidents that happened on 7/30/26. My wallet was drained of 5.39099821 BTC on 7/31/26 at 1:28 PM EST, which I believe makes it a good candidate for a successful recovery. As far as I can tell, it seems like this was a different, copy-cat attacker from the original.
